History: \_\_\_\_\_ has been \_\_\_\_\_ to.

Kelly:

We're probably ok with that. Go ahead and figure on it. Early this afternoon I'll send out a room number and call in information. I've had a bit of a problem getting in this morning. Just getting in now. Have an off site meeting at 11 which is why it will be early this pm before I can get a room lined up.

Rick

Hey Rick,

Just heard from Larry. His schedule is a bit messy.  
Is there any possibility of moving our meeting to 4:15 at USDA?  
Larry has a meeting at USDA from 3-4 and, with his secretary gone the last 2 wks, it looks like he double booked.  
We'll make this work one way or another, but I just wanted to see if there's any flexibility on your end ...  
Thanks for considering this.

Hi Rick, Thanks for setting up the conference call. Larry's assistant is just getting back in office this week, so it would be much easier if you could handle it. See you tomorrow. K

Kelly:

At least two people that I need to join the meeting Thursday will need to call in. See below. They are CEAP folks. Would you like to provide the call in information or would you like me to? I have one of those handy dandy conference call in cards where I can set up a teleconference anytime with no notice. Let me know.

Rick

Rick,

Both Lee and Jay will be able to call in. When you have the call in information (I see the time but no number as yet) let us know. If there are some particular sensitivities that they need to be aware of please let them know in advance. We don't have much information on the meeting as yet. Thanks.

Daryl

Bob:

Is there any chance of you calling in? Also can you contact Lee and see if he can call in? I really need one of you. Will explain. Are you in your office so I can call you? If so will you email me your phone number and what would be a good time to call?
